

**For Sale**

# The World's Largest Inventory of N.O.S. Avanti Parts

**Nostalgic Motor Cars has the largest inventory of 1963-85 New Original Stock Avanti parts in the world.** So you can be assured the parts are correct in appearance and fit. We do sell a few reproduction parts, but we tell you it's a reproduction. We do not sell reproduction parts using the original part numbers.

We have New Original Stock 1963-85 Avanti parts that haven't been available from anybody else, for decades!

For over 45 years, our only business is 1963-85 Avantis, not Studebakers, but just exclusively 1963-1985 Avantis. New and Used Avanti Sales, N.O.S. Avanti parts and complete in house service, exclusively.

- Avanti Motors Authorized Service Center since about 1968
- Complete Body and Collision Shop for Avantis
- Body and Frame Restoration
- Complete Interior Work
- We grew into Avanti Motors Largest, Full Service Avanti Dealership and did more factory new car warranty work than anybody else.
- Licensed Used Avanti Motors Dealership
- **Licensed, franchised New Avanti Dealership since 1981, I was never an associate dealer.**
- Avanti Motors Largest Stocking Parts Dealership, 2nd only to them.
- On November 9th 1989 Nostalgic purchased the parts division from Avanti Motors, including all original tooling, dies, blue print, purchase records, part numbers and etc. Then we became the world's largest supplier /manufacturer of N.O.S. Avanti Parts.

- We purchased all the original build sheets, inspection tickets, and dealer invoices with the exclusive right to all other copies for 1963-64 Studebaker Avanti and 1965-1985 Avantis. They're called, "The Nostalgic Born Reports"

We have done all this without much advertising, just like Avanti Motors did under the Altman ownership, that's how we have become The Best Kept Avanti Secret.

All my 45 years of Avanti Service/parts knowledge, comes free with the purchase of parts from Nostalgic Motor Cars. Most of all, You will probably be pleasantly surprised at the prices, commonly lower than reproduction parts.

**Our website is [NostalgicMotorCars.net](http://NostalgicMotorCars.net) where you can now order parts, 24/7/365, view insightful tech articles, browse our used car inventory, search by part numbers, Illustration numbers, phrasing and even groups.**

This is a huge undertaking, due to our vast inventory, and limited time. Please be patient, as only a very small fraction, of our inventory is currently listed, if you don't see what you're looking for, you're welcome to give us a call. Don't forget to sign up for our newsletter while you're there.

We've had a tremendous positive response from Avanti Owners about my article on how to install a N.O.S Avanti dash pad for 1963-85 I have promised our customers that I will write between 2-4 How to Avanti Articles for each issue of the Avanti Magazine. This allows for the average person, or a repair facility to better understand how a part and/or parts are to be installed, the easy and correct way, and you may be able to do it yourself.

**Help increase the value of 1963-1985 Avantis by using New Original Stock Parts, instead of reproduction parts.**

# Avantis For Sale by the World's Oldest & Largest Avanti Dealership, for over 50 Years

**All Avantis listed in this ad are in the top 5% of Avantis in the world**, in respect to the condition of the underside of these cars. Their condition is original which shows some slight surface rust, some original factory black paint. Possibly some over spray from past touch up on the body over the years and even the original born with rear cross members (which is very rare indeed to have that) You might possibly see old dried up and cracked born with factory optional under coating (was a \$50.00 extra cost option) These original Avantis have no replacement aftermarket hog troughs that aren't made to Avanti Original Blue Print specifications and are not installed correctly to Avanti Motors correct specifications. From what I have been told, hog troughs (aftermarket) alone will cost you between \$5000.00 to \$8,000.00 for the parts, shipping and labor. Rusted frame work will cost anywhere from \$500.00-\$20,000.00 . Plus rear cross member replacement will range from \$400.00 and up if the steel is thick enough to accept a new welded in cross member. Prospective Avanti buyers don't often think about all the metal brake and fuel lines, that will most likely need to be replaced, due to rust (cost from \$750.00 up) The hog trough and frame rust issues, should be a red light to these and many more unknown costly issues, due to rust. These Avantis don't have freshly applied under coating, or black paint that is deliberately disguising the rust issues.

You will likely pay more, for an Avanti that's in the top 5% percentile, which I just defined, but in the long run, for resale value and the final money that's invested, It will be far cheaper to start with a better Avanti (but then are very, very rare)

By the way, my 1981 Avanti with Mercedes Orient Red, original paint and original gray leather interior Immediately sold for \$32,000.00- before everybody had received the Avanti Magazine **Go to the website**, or look at pages 66 & 67 issue #197 to view that incredible Avanti.

## 1977 Avanti

Pueblo Beige Poly factory lacquer paint with Driftwood (dark brown) leather Interior, it has light tan suede door and quarter panel side inserts, along with light tan suede seat welting, **22,469 original miles** on this incredible, one family owned, special order Avanti, most factory accessories, original factory L 48 Corvette 350 engine and 400 auto trans about \$35,000.00

## **1981 Avanti**

Looks like original British Racing Green, lacquer paint with tan leather Recaro seats, 52,761 original miles, most factory accessories, 305 V-8 and auto trans about \$29,000.00

## **1983 Avanti**

New Root Beer Firemist base/clear coat urethane paint with chocolate brown leather Recaro seats and tan welting, most factory accessories, 112,300 miles with a 305 and auto trans \$31,000.00

**1967 Avanti body with perfect windshield pillars and frame, also with new galvanized hog troughs installed** The hog troughs were installed by a shop who advertises in this magazine at a cost of over \$4800.00 This body will fit all 1963-1985 Avantis without any modifications. Call for details on what will have to be done to correctly replace your body with this body **\$5,500.00**

47400 Avante Drive Wixom, Michigan 48393

**248-349-4884**

**NostalgicMotorCars.net**

Why do they call Nostalgic Motor Cars, The World's best kept Avanti secret? We have been in the Avanti business, for over 49 years. Longer than anybody else in the world, including Avanti Motors. We have achieved this, untouchable record, of 49 plus years, with minimal advertising, and amazingly about **75-80% of our Avanti customer base are not members of the Avanti Owners Association Car Club.**

The **Avanti Gas tank article in issue #196**, of *The Avanti Magazine* is a safety issue and should be a must read for any 1963-1985 Avanti owners.

Why would anybody install a reproduction, aluminum or stainless, gas tank, that's not made from the original blue print specifications, in their Avanti?

Avanti Motors Engineering specified 20 gage steel as the material for gas tanks from 1963-1985, which to the best of my knowledge, has a 100% safety record for the past 37-59 years. They didn't choose aluminum or stainless, like the reproductions.

The only down side of the Avanti steel gas tank is rust, but that is totally eliminated with the PVC coating inside and outside, these PVC coated tanks come with a lifetime warranty. Do the aluminum or stainless gas tanks come with a lifetime warranty, and how old is their safety record?

The Avanti Magazine doesn't have enough space, in each issue, for all my requested tech articles "Nostalgic Motor Cars Unlocks the History and Mysteries of the 1963-1985 Avantis." Now you can go to our web site, and read all my past articles as well sign up, via e-mail, to receive updates on newly published articles, even before they reach the magazine. Some of my articles unlock unknown safety concerns of the 1963-1985 Avantis, and should be, a must read!

The **Rag Joint article in Issue #191**, of the Avanti Magazine is a must read for all 1963-1985 Avanti owners, as it is a safety issue article. Why would anybody drive an Avanti, with a 37-59 year old piece of rubber that controls every steering movement?

Prices subject to change without notice.

The world's finest N.O.S. Studebaker Avanti, and Avanti dash pads with glove box door pads, are

**NOW AVAILABLE!**

**Exclusively from Nostalgic Motor Cars.**

These incredibly pliable, accurate fitting works of art, were made from the original Studebaker Avanti tooling / blue prints. (Parts that are made from the original tooling / blue prints are **NEW ORIGINAL STOCK**, or N.O.S.) These are not the reproductions, being sold by others and using the factory part number, that are not pliable and easy to install like the originals.

**Read how EASY it is to install these N.O.S. Dash Pads Issue #189 or see Tech Articles on our Web Site**

**The only Avanti Dash Pad ever made correctly since 1983.**

Manufacturers original blue prints will specify the correct types of materials to be used. The original tooling with correct materials, will produce a correct, and accurate fitting, looking, feeling and pliable dash pad with outstanding detail.

Reproductions have to be guessed as to what type of materials to use and all the dimensions needed. If you didn't already know, Nostalgic Motor Cars purchased the Avanti Motors, parts division on November 9, 1989, which included all the original tooling, blue prints, part numbers and etc.

Prices do not include shipping

**N.O.S. Incredibly pliable sun visors**

**Notice how incredibly soft and pliable the original dash pads were when the Avanti was new!**

Visit our web site for detailed information, and FAQ about these beautiful dash pads.

## Raymond Loewy Prints and Portfolio

Available Exclusively from Nostalgic Motor Cars

Truly one of the most unique tributes to fine automotive design

**Raymond Loewy Portfolio** Only 1000 Produced, remaining supply is very limited \$295.00

- Includes Four prints each hand signed and numbered by Raymond Loewy,
- 3 page letter, on Mr. Loewy's own personal (embossed logo) stationary,
- One double sided addendum (17" x 22") ,
- Enclosed in a very unique, large, folio envelope with a gold foiled Raymond Loewy Signature and Studebaker logo.

**\$35.00**

**\$35.00**

**\$35.00**

**\$25.00**

These individual prints are over runs of the prints, for the portfolio. They had the over runs as a safety net, as Raymond Loewy and the Bleifeld Group didn't want anything but the best possible prints for the 1000 portfolios. All the prints went through the four complete print proofing. Only this group of superb prints were ready for Loewy to sign, though these never got signed. The Bleifeld Group held the over runs in case some got damaged in shipment. The less than superb group (rejects) surfaced a few years back, and were sold by others.

### Individual Prints *Prices shown above each print*

These are not copies, or rejects, like others have sold, but the real deal. They have been in their original packaging, since 1974. Prints Measure 17" x 22"

### Set of 4 Prints All 4 prints \$ 110.00

- Red 1963 Avanti
- Gold 1963 Avanti
- Red 1953 Starliner
- Blue of Loewy's Personal Town Car

*Quantities are Limited, when they're gone, they're gone forever!*
